- 54 of 65. AW Computing wants to prevent users from updating the Account Annual Revenue field to be a negative value or an amount more than \$100 billion.

How should an administrator accomplish this request?

- A. Build a scheduled report displaying Accounts with Account Revenue that is negative or greater than 100 billion.
- B. Create a validation rule that displays an error if Account Revenue is below 0 or greater than 100 billion.
- C. Make the Account Revenue field required on the page layout.
- D. Enable Account Revenue limits in Setup, with 0 as the minimum and 100 billion as the maximum.

- 55 of 65.** The administrator at Universal Containers has a screen flow that helps users create new leads. When Lead Source is "Search Engine", the administrator needs to require the user to choose a specific search engine from a picklist. If Lead Source is not "Search Engine", this picklist should be hidden.

How should the administrator complete this requirement?

- A. Configure a picklist for Specific Search Engine, and use a validation rule to conditionally show only when Lead Source is "Search Engine".
- B. Use an assignment element, one for when Lead Source is "Search Engine" and one for everything else.
- C. Create a picklist for Specific Search Engine, and set conditional visibility so that it is only shown when Lead Source is "Search Engine".
- D. Assign a decision element to direct the user to a second screen to hold Specific Search Engine only when Lead Source is "Search Engine".
